

NEW

COB Series Dry Ice Blasters

Maximal performance with minimal air consumption!

The CRYONOMIC® COB series is specially designed to operate as a single hose system.

Its new and unique concept results in:

- low air consumption
- powerful cleaning performance
- ergonomic design – light & easy manipulation
- excellent price/performance ratio

An ultra light, easy-to-handle gun, the MG 1002 has been specially designed for this blaster.

The COB series completes the CRYONOMIC® range of blasting equipment. Specific applications areas are:

- high performance cleaning with low air consumption
- focalised cleaning

CRYONOMIC® Blasting machines are used worldwide and have been running successfully since 1992.

Dry Ice Blasters

CRYONOMIC® One-hose Blaster or COB

Technical information

The new One-hose blaster has all the practical advantages of the two-hose CAB 52 model. A newly developed and patented CRYONOMIC® technology has been integrated, resulting in unequalled performances with limited air consumption. Special attention is given to ergonomic design and ease of manipulation. The unit is very economical in usage and produces excellent results even in the most challenging circumstances.

1. General Characteristics

Chassis	• complete stainless steel
Standard delivered with	• 4 wheels • handle • holder for blast hose
	• 5 m blast hose (3/4") • control cable • protective sleeve
	• MG 1002 gun with focus round nozzle
	• 5 m power cord
	• Manual and CE certificate
Weight with empty hopper	• 66 kg
Dimension in mm (lxwxh)	• 380 x 570 x 890
Hopper	• 14 kg dry ice capacity • isolated hopper • easily removable
Supply pressure	• 3/4" BSP connection
	• 1 – 16 bar dried air
Blast pressure	• 0,5 to 7 bar
Air consumption	• 1 to 5 m³/min.
Pellet consumption	• Adjustable 20 – 80 kg/h
Regulation and indication	• Blast pressure • pellet consumption • gun light (pre-equipped)
Mains	• 230 V
Power consumption	• 650 W

2. Options

LED gun light	
Different nozzles	
Built in transformer 110 V / 50 – 60 Hz	
COB as Table Top Model
